

## Donations

The **Conanicut Island Raptor Project** is a non-profit organization dedicated to the preservation, study and enjoyment of Jamestown's wild birds of prey. It is CIRP's belief that an informed community that values its wildlife will act responsibly to protect wild animals and the habitat on which they depend for survival.

Funding for CIRP is provided by private donations and grants to the **Jamestown Education Foundation**, a 501 [c](3) non-profit corporation. Your tax-deductible donation will support CIRP's education program in Jamestown schools, pay for satellite tracking of Conanicus (2005) and Comet (2006), and enable CIRP to erect new nesting platforms for returning osprey next spring.

**Check Enclosed.** Please make check payable to Jamestown Education Foundation and note that your donation is for CIRP. Print and complete this form and mail to the address below.
